

Gaumnukh Dairy

Purity Of Ganga

About Us

Gaumukh, meaning 'Face of a cow', is the source of the river Bhagirathi - and one that after its confluence with the river Alaknanda at Devprayag, form Ganga - a symbol of purity and holiness!

Taking inspiration from the revered place of Gaumukh, a project to save and care for our GauMata is currently underway at a distance of 18 km from Rishikesh - a revered land for Gods and sages. Perched on a ridge amidst dense forest, Gaumukh Dairy is attempting to preserve, nurture and nourish the Indigenous cows of India- Gir, and Sahiwal together with their calves. The A2 standard dairy products, we produce are as pure as the waters of Maa Ganga.

Gaumukh Dairy is Uttarakhand's first high-tech model dairy farm certified by National Dairy Research Institute. We are also registered with FSSAI.

Our Gaushala

Nestled In The Lap of Serene Garhwal Mountains Near the banks of river Ganges , in Devbhoomi Uttarakhand, we are leveraging the knowledge of Vedic Wisdom to protect our Indigenous Cow Breeds (Sahiwal & Gir). As we aspire to connect back with our cultural roots, we ethically bring to you the purest A2 Dairy products from our farm to your table, fresh and organic.

Farm to Home

Gaumukh Dairy is spread across several acres of organic certified land of the Garhwal Himalayas near the banks of the river Ganga. Our aim is to restore the Vedic knowledge and serve people by providing wholesome nutrition, and deliver associated benefits.

A2 milk is rich in protein, which is an important building block in everything from muscle tissue to skin and blood. It contains a significant amount of omega-3 fatty acids, too. These are polyunsaturated fats that your body needs in order to function well

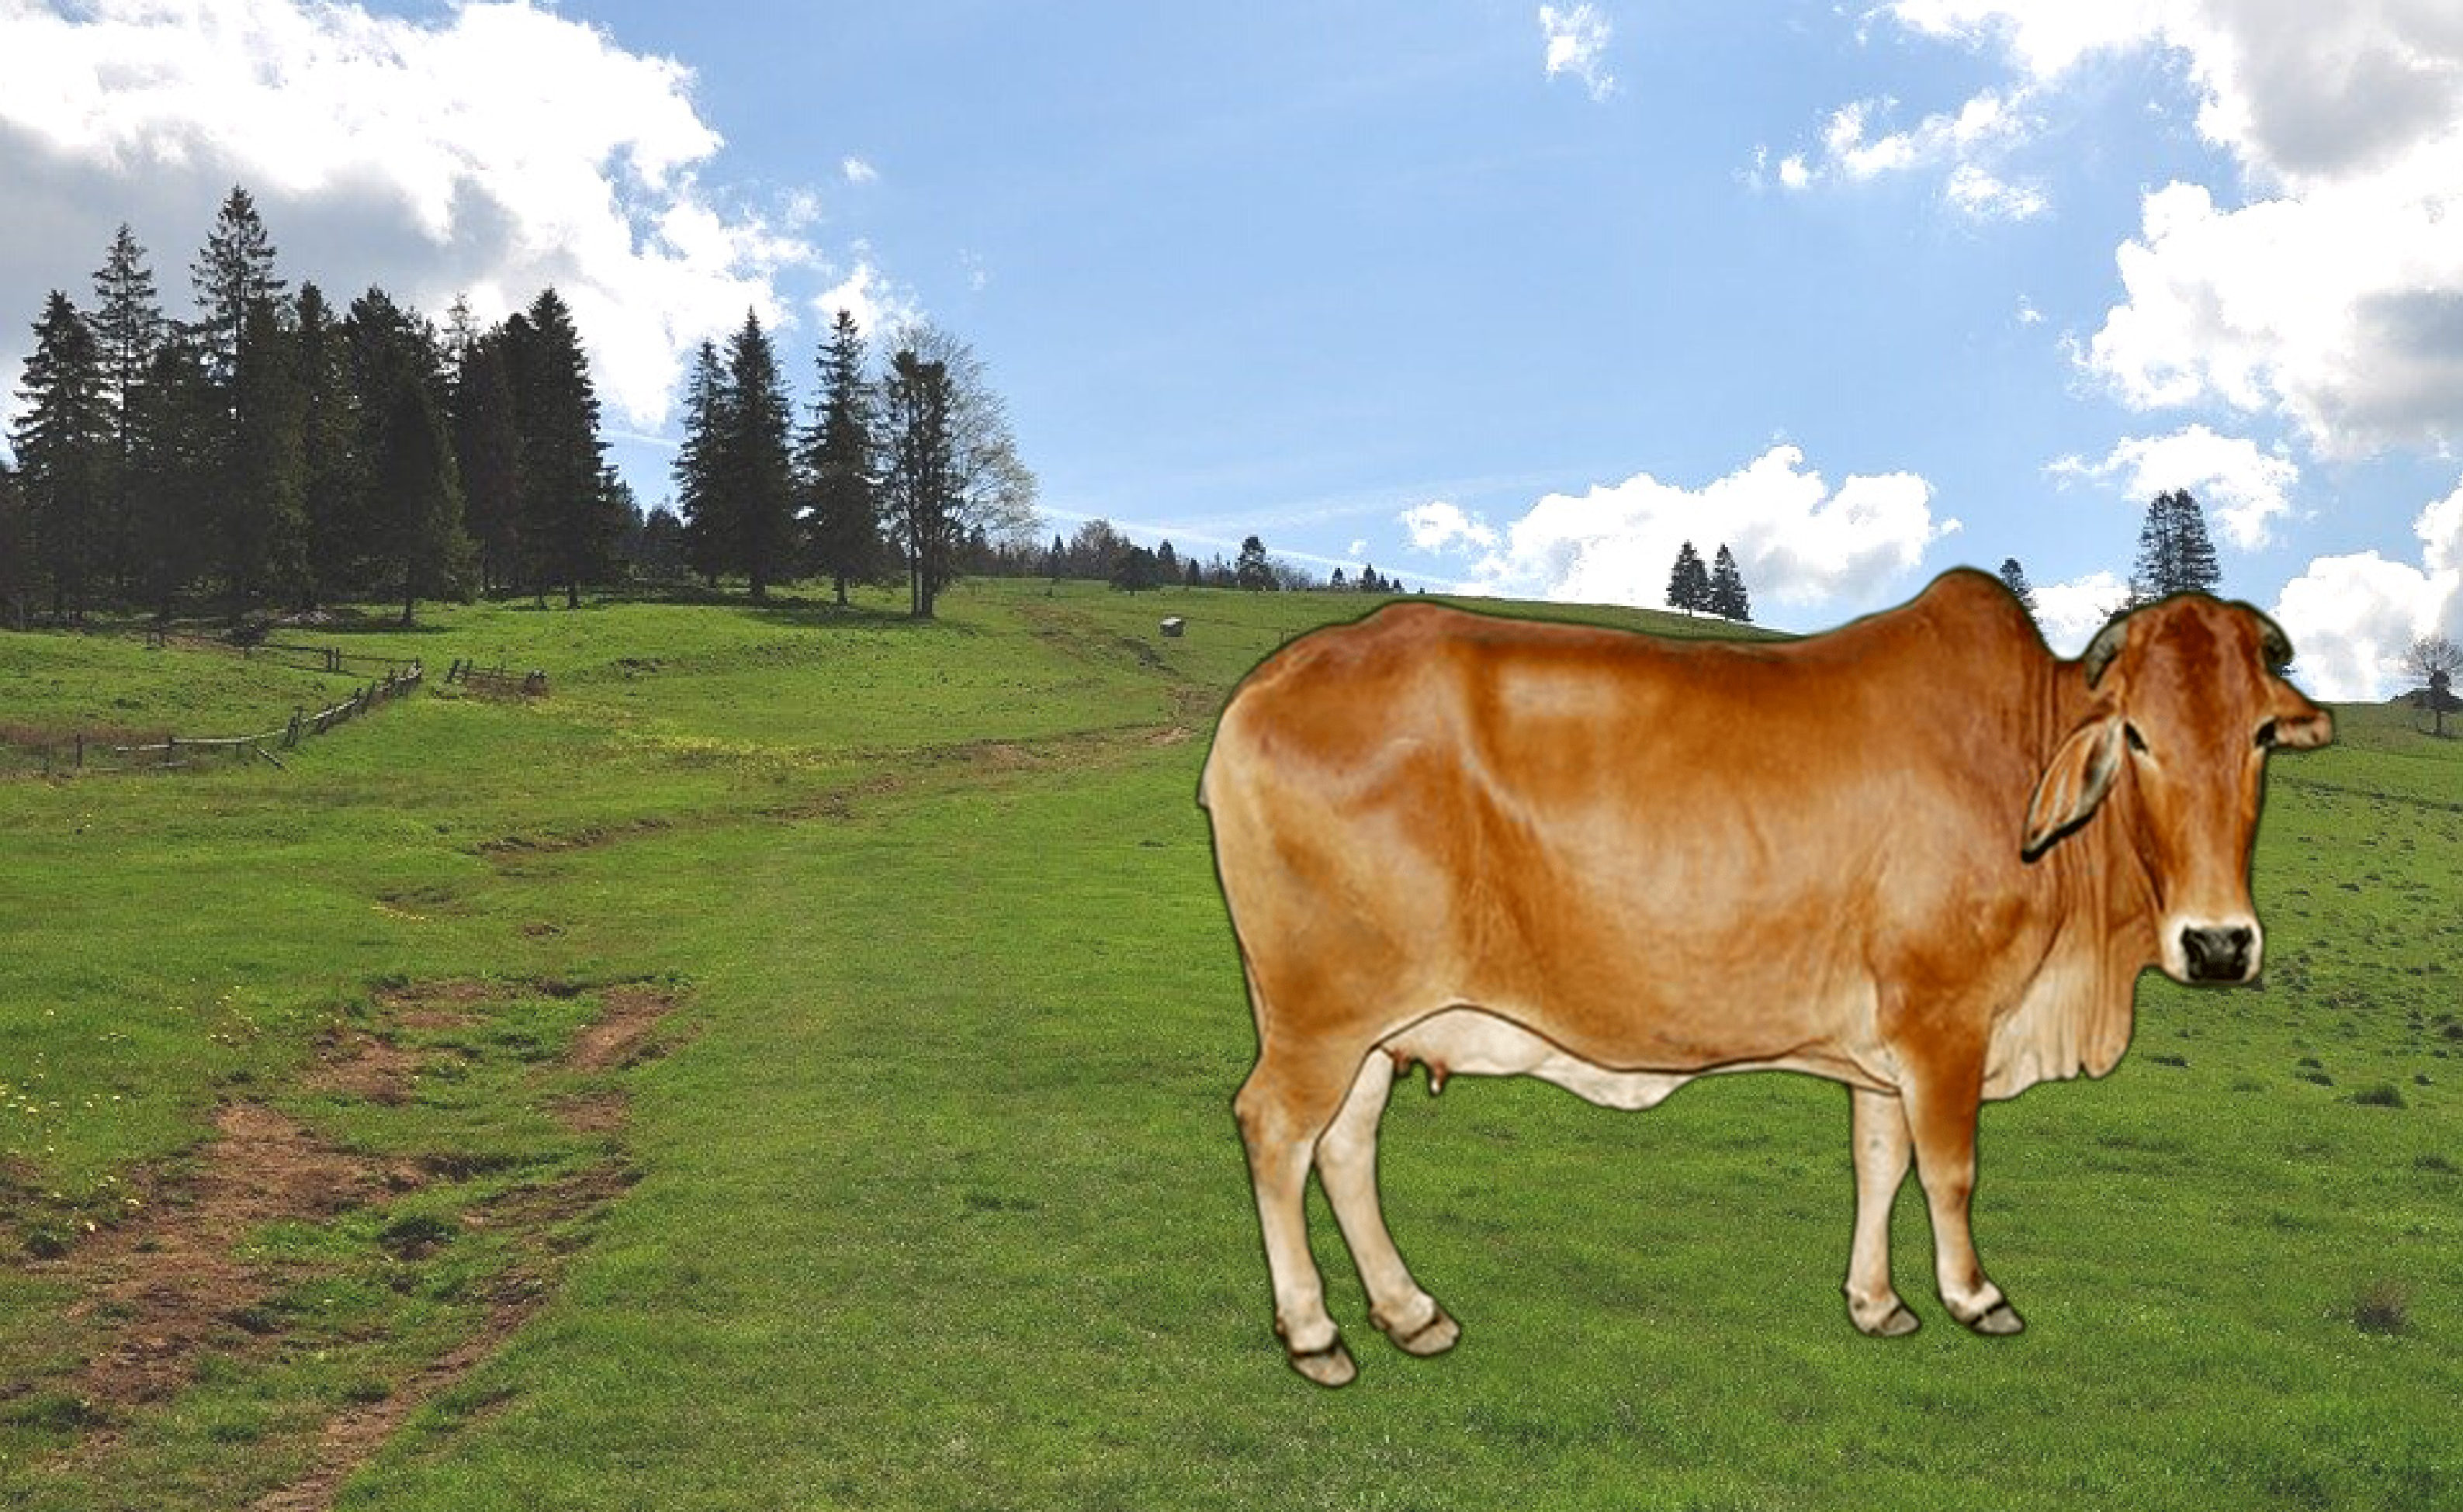

Ghee made from A2 milk in the Vedic method has anti-bacterial, antifungal and antioxidant properties.

The consumption of ghee is beneficial for the smooth functioning of the digestive system. It is high in butyric acid and essential for gut health. It acts as a lubricant for joints.
